

SHAURYA ATTAL

763-286-3554 | John's Creek, GA | shaurya.attal@gmail.com | [LinkedIn Profile](#)

EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY

Atlanta, Georgia

B.S. Computer Science (Threads: Devices & AI)

GPA: 4.00

Expected Graduation 05/30

- Intended Second Major: Industrial Engineering (Concentration: Analytics and Data Science)
- Relevant Coursework - CS 1301, CS 1331: Java Programming, MATH 1554: Linear Algebra, MATH 2551: Multivariable Calculus

TECHNICAL SKILLS

Programming Languages:	Python, Java, Typescript, SQL, HTML/CSS
Machine Learning & Data Science:	scikit-learn, Tensorflow, Pandas, Numpy, Streamlit
Frameworks & Technologies:	React, Convex, Git, GitHub, WordPress
AI Tools/Frontier Models:	Codex, Copilot

RESEARCH EXPERIENCE

Georgia Tech Center for Education Integrating Science, Mathematics and Computing

Atlanta, Georgia

Student and Lead Mentor

June 2023 – Present

- Developed & evaluated ML models in Python for optimization & sentiment analysis using supervised learning techniques.
- Recognized by AI4OPT ([Shaurya Attal - Lead Mentor](#)) for mentoring 200+ students, course development, and student learning effectiveness.

Harvard Undergraduate Ventures TECH Summer Program

Johns Creek, Georgia

AI/AGI Safety Research Intern

June 2025 – July 2025

- Conducted research on AGI safety applications in healthcare and education, working with researchers at Amplify Institute.
- Evaluated AI governance challenges and recommended deployment strategies for responsible AI systems.

Inspirit AI Scholars

Virtual

Student Researcher, AI Ambassador

July 2024 – November 2024

- Designed and evaluated a HistGradientBoostingClassifier using scikit-learn on the COMPAS criminal justice dataset.
- Achieved 70% accuracy using feature engineering & hyperparameter tuning, analyzing bias in recidivism prediction.
- Collaborated with the Fulton County DOJ and My Journey Matters to explore real-world applications of the research.

MIT Critical Data

Johns Creek, Georgia

AI Governance Researcher

Feb 2026 - Present

- Designed a governance framework for identifying malicious AI systems using classification and evidentiary standards.
- Conducted case studies on criminal and dual-use AI systems while building a standardized public research repository.

SOFTWARE ENGINEERING & TECHNICAL EXPERIENCE

LearnerSnapshot Inc.

Atlanta, Georgia

Founding Member & Technical Lead

June 2025 – Present

- Built a platform using React and Convex that measures cognitive skill through game-based behavioral analytics.
- Developed full-stack architecture and predictive models that estimate academic readiness using performance data.

Folio

Virtual

Fellow, Software Engineering Intern

June 2024 – October 2024

- Improved website usability and UI for users through PHP and JavaScript development within a custom WordPress theme.
- Resolved production bugs and deployment issues during a live product launch for hundreds of users.

AWARDS & HONORS

Awards: Master of Code – GT Seth Bonder Camp 2, First Place 11/12 Mobile Apps – FCSTC & GaSTC, Phi Beta Kappa Book Award, Keenan Foundation Leadership Award, NSHSS STEAM Scholarship
