

SHAURYA ATTAL

763-286-3554 | John's Creek, GA | shaurya.attal@gmail.com | [LinkedIn Profile](#) | [GitHub](#)

EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY

Atlanta, Georgia

B.S. Computer Science (Threads: Devices & AI)

GPA: 4.00

Expected Graduation 05/30

- Relevant Coursework - CS 1301, CS 1331: Java Programming, MATH 1554: Linear Algebra, MATH 2551: Multivariable Calculus

TECHNICAL SKILLS

Programming Languages:	Python, Java, Typescript, JavaScript, SQL, HTML/CSS
Frameworks & Technologies:	React, Convex, Git, GitHub, WordPress, Streamlit
Machine Learning & Data Science:	scikit-learn, Tensorflow, Pandas, Numpy
Developer Tools/Frontier Models:	Codex, Copilot, VS Code, Linux

SOFTWARE ENGINEERING & TECHNICAL EXPERIENCE

LearnerSnapshot Inc.

Atlanta, Georgia

Founding Software Engineer & Technical Lead

June 2025 – Present

- Developed full-stack cognitive assessment platform by building a React, TypeScript, and Convex application.
- Enabled real-time behavioral analytics and predicted standardized testing readiness using ML models and gameplay data.

Folio

Virtual

Software Engineering Fellow

June 2024 – October 2024

- Improved website UX for hundreds of users by developing features using PHP, JS, and HTML/CSS within WordPress.
- Accelerated feature delivery and worked with engineers to release improvements and maintain production stability.

Selected Software Projects

The Pit Wall - Automated Formula 1 Dashboard (Python, JS, HTML/CSS, APIs, GitHub Actions & Pages)

- Automated F1 data updates through Python pipeline that ingests API data and deploys changes through GitHub Actions.
- Maintained updated race & championship data with conditional automation, skipping deployments when data is unchanged.

AqualImpact – Water Stress Predictions (Python, Machine Learning, Streamlit, Pandas, NumPy, Matplotlib)

- Predicted water-stress levels (0-100 risk score) using environmental sustainability indicators, and Streamlit visualizations.

StockRiskEd – Financial Analytics (Python, Streamlit, Pandas, Numpy, Matplotlib)

- Enabled investment risk analysis through an application that computes returns, rolling volatility, and risk classifications.

RESEARCH EXPERIENCE

Georgia Tech Center for Education Integrating Science, Mathematics and Computing

Atlanta, Georgia

Student and Lead Mentor

June 2023 – Present

- Developed ML solutions for optimization and sentiment analysis by implementing supervised learning models in Python.
- Recognized by AI4OPT ([Shaurya Attal - Lead Mentor](#)) for mentoring 200+ students and course development.

MIT Critical Data

Johns Creek, Georgia

AI Governance Researcher

Feb 2026 - Present

- Designed AI governance framework by establishing classification criteria, evidence standards, & review process for systems
- Built standardized AI research repository by developing automated evidence collection and documentation pipelines.

Inspirit AI Scholars

Virtual

Student Researcher, AI Ambassador

July 2024 – November 2024

- Achieved 70% accuracy on COMPAS dataset coding a HistGradientBoostingClassifier using scikit-learn.
- Improved performance through feature engineering, hyperparameter tuning, and bias evaluation techniques.

AWARDS & HONORS

First Place, Mobile Apps (FCSTC & GaSTC), Phi Beta Kappa Book Award, NSHSS STEAM Scholarship
